(MR. BARBER'S OFFICE HAS NO IDEA OF CLASSIFICATION OF THIS.
I QUESTIONED WHETHER IT SHOULD BE DICTATED OVER PHONE. T.)

DICTATED BY BARBER'S OFFICE for MR. CLEVELAND 9:45 a.m. 11/1/62

REF ()

through SYG or

1. Inform Kuznetsov either/directly ~~xxxxxxx~~, that
U.S. considers Russian operated anti-aircraft units responsibility
of Russian Government, not Cuban Government.

(FYI, the Cubans are incapable of operating surface-to-air missiles without Russian support.

They may be incapable of ~~xx~~ operating 57 MM radar controlled
~~xi~~ anti-aircraft equipment. Above named weapons more effective.)

2. Bring to the attention SYG that President's proclamation
missiles fuel *offensive weapon*
included ~~xxxxxxxxxx~~ in the ~~classified~~ list. U.S. desires
fuel of type used in MREM and IREM's removed from the Island/

FYI, all three missiles, MREM's, IREM's and SAM's used
nitric acid as the basic fuel and amine, a hydrozene compound,
as the oxidizer. The SAM's have a first-stage solid booster
but the second stage uses the nitric acid and hydrozen
and, therefore, the missile would be inoperative without the
liquids. The liquid fuels are storable, that is, they can be
left in the missiles ~~xxx~~ indefinitely.

effective

3. Inform SYG and Kuznetsov, that in absence of, UN
inspect^{MM}~~ion~~, U.S. insists on overflight rights without interference.
If anti-aircraft fire continues we may fire at anti-aircraft
sites. If we do so, we will ~~xx~~ only fire if fired upon and
only at the site which fires.
